|---|------------|
| <b>Preface</b> .....  | <b>V</b>   |
| <b>The Author</b> .....   | <b>VII</b> |
| <b>1 Introduction</b> .....                                     | <b>1</b>   |
| <b>2 Polymers, Additives, and Processing</b> .....              | <b>5</b>   |
| 2.1 Overview .....  | 5          |
| 2.2 Polymers .....  | 8          |
| 2.3 Additives .....   | 11         |
| 2.4 Processing Technology .....                                 | 13         |
| <b>3 Fundamental Parameters of Powder Characteristics</b> ..... | <b>23</b>  |
| 3.1 Introduction .....  | 23         |
| 3.2 Particle Size and Size Distribution .....                   | 25         |
| 3.3 Equivalent Particle Size Diameter .....                     | 36         |
| 3.4 Methods of Particle Size Measurement .....                  | 39         |
| 3.5 Particle Shape .....  | 41         |
| 3.6 Particle Density and Bulk Density .....                     | 42         |
| 3.7 Sampling .....  | 45         |
| <b>4 Solid-Solid Mixing</b> .....                               | <b>47</b>  |
| 4.1 Overview .....  | 47         |
| 4.2 The Statistical Assessment of Degrees of Mixing .....       | 48         |
| 4.3 Segregation and Effect of Particle Flowability .....        | 51         |
| 4.4 Mixing Mechanism and Selection of Mixers .....              | 56         |

|          |  |            |
|----------|--|------------|
| <b>5</b> | <b>Storage and Discharge of Particulate Solids</b> .....                                 | <b>61</b>  |
| 5.1      | Introduction .....   | 61         |
| 5.2      | Mode of Hopper Flow .....  | 62         |
| 5.3      | Hopper Design .....  | 65         |
| 5.3.1    | Design Principles and Procedures<br>(Based on Jenike Shear Cell Testing Technique) ..... | 65         |
| 5.4      | General Discussion .....   | 74         |
| <b>6</b> | <b>Pneumatic Conveying of Particulate Solids</b> .....                                   | <b>75</b>  |
| 6.1      | Introduction .....   | 75         |
| 6.2      | Basic System Setup .....   | 79         |
| 6.3      | Basic Phase Diagram .....  | 82         |
| 6.4      | Dilute Phase Conveying .....   | 84         |
| 6.5      | Dense Phase Conveying .....  | 87         |
| 6.6      | Other Considerations .....   | 88         |
| <b>7</b> | <b>Gas Fluidization</b> .....  | <b>91</b>  |
| 7.1      | Introduction .....   | 91         |
| 7.2      | Qualitative Classification of Gas Fluidization .....                                     | 94         |
| 7.3      | Basic Measurements from a Fluidized Bed .....  | 96         |
| 7.3.1    | Bed Pressure Drop .....  | 96         |
| 7.3.2    | Minimum Fluidization Velocity, $U_{mf}$ .....  | 100        |
| 7.3.3    | Minimum Bubbling Velocity, $U_{mb}$ .....  | 102        |
| 7.3.4    | Bed Expansion .....  | 103        |
| 7.4      | Criteria for Group Demarcation .....   | 107        |
| 7.5      | Gas Distributor .....  | 110        |
| 7.6      | Applications of Gas Fluidization Technology<br>in Plastics Processing .....              | 111        |
| <b>8</b> | <b>Interparticle Forces</b> .....  | <b>121</b> |
| 8.1      | Introduction .....   | 121        |
| 8.2      | Types of Interparticle Forces .....  | 121        |
| 8.2.1    | van der Waals' Forces .....  | 121        |
| 8.2.2    | Electrostatic Forces .....   | 122        |

|                               |   |            |
|-------------------------------|---|------------|
| 8.2.3                         | Moisture Bonding .....  | 122        |
| 8.2.4                         | Other Interparticle Bonds/Forces .....  | 122        |
| 8.3                           | “Alternative” Way of Measuring Interparticle Forces .....   | 123        |
| <b>9</b>                      | <b>Effects of Particle Characteristics on Rheological Properties<br/>of Polymeric Melts .....</b> | <b>127</b> |
| <b>Appendix A (Chapter 3)</b> | <b>.....</b>  | <b>133</b> |
| <b>Appendix B (Chapter 4)</b> | <b>.....</b>  | <b>137</b> |
| <b>Appendix C (Chapter 5)</b> | <b>.....</b>  | <b>139</b> |
| <b>Appendix D (Chapter 5)</b> | <b>.....</b>  | <b>141</b> |
| <b>Appendix E (Chapter 6)</b> | <b>.....</b>  | <b>145</b> |
| <b>Index</b>                  | <b>.....</b>  | <b>151</b> |
